Filtration & Separation
1998 Index

Volume 35 Index: 1998
January/February pp.1-88
March pp.89-204
April pp.205-308
May pp.309-388
June pp.389-472
July/August pp.473-544
September pp.545-768
October pp.769-840
November pp.841-896
December pp.897-960

Air Filtration Media
Air Filtration Media for Transportation Applications p.124

Air Filtration
Air Filter Trends p.130

Air Pollution Control
A New Cost-Effective Solution to Air Pollution Control p.140

Backwashing
Instrumentation for Investigating and Optimizing Filter Backwashing p.69

Bioreactors (Membrane)
A New Development in Membrane Bioreactors: Increasing the Capacity of Existing Biological Treatment Plants p.792

Ceramic Membranes
Microfiltration – A Case Study p.43
Tangential Flow Filtration for Beer Recovery from Spent Yeast p.863

Compressed Air Filtration
Deeper into Compressed Air Filtration p.243
Optimizing Energy Efficiency in Compressed Air Filtration p.251

Crossflow Microfiltration
The Use of Crossflow Membranes to Clarify and Stabilize Beer p.860

Cryptosporidium Removal
Control of Cryptosporidium in Bottled Water Using Cartridge Filtration Systems p.37

Depth Cartridge Filtration
CoLD Melt Technology Redefines Depth Cartridge Filtration p.231

Dewatering
The Use of High Pressure in the Dewatering of Industrial Mineral Effluents for Disposal to Landfill p.339

Dry Filters and Separators
The European Market for VOC Emission Control Equipment p.686

Dust Cake Formation
Bimodal Aerosol Loading and Dust Cake Formation on Air Filters p.191

Dust Collection
The Importance of Partnership in Dust Collection System Design p.146

Dust Filters
Simulation of the Long-Term Behaviour of Regenerateable Dust Filters p.373

Electret Media
Cleaner, Healthier Environments: AFFCO Enhances Air Filter Performance with Electret Composites p.118

Electrostatic Precipitators
Innovative Wet Electrostatic Precipitator Technology p.433

Filter Backwashing
Instrumentation for Investigating and Optimizing Filter Backwashing p.69

Filter Media
Air Filtration Media for Transportation Applications p.124
Clogging of Filter Medium by Excess Polymer During Alum Sludge Filtration p.947
Filtration Activities in the Asia-Pacific Region p.595
Cleaner, Healthier Environments: AFFCO Enhances Air Filter Performance with Electret Composites p.118

Filter Testing
Advances in Pore Size Characterization: New Techniques for Largest Pore Size and Pore Shape Distribution p.254

Filtration of Biological Materials
An Investigation into the Filtration of Biological Materials: Why is it Such a Problem? p.507

Fine Particle Monitor
The Development of a Fine Particle Monitor Based on the Method of Dynamic Light Extinction p.73

Fine Particle Separation
Fine Particle Separation: Selecting Filter Media for Liquid Filtration p.258

Floc Density in Solid-Liquid Separation
The Role of Floc Density in Solid-Liquid Separation p.367

Flocculation (Electrolytic)
Treatment of Acidic Effluent from Element Chlorine Free Bleaching by Electrolytic Flocculation p.827

Flotation Separation
Wetting Mechanism in the Flotation Separation of Plastics p.525

Fume Scrubbing
Pitch Fume Treatment of a Green Carbon Plant p.797

Granular Moving Bed Filters
Stagnant Zones in Granular Moving Bed Filters for Flue Gas Cleanup p.529

High Filtration Pressure in Dewatering
The Use of High Pressure in the Dewatering of Industrial Mineral Effluents for Disposal to Landfill p.339

High Temperature Filtration
High Temperature Filtration in the Process Industry p.461

Hot Gas Filtration
Markets for Hot Gas Filtration p.809

Industrial Fume Purification
Effective Filter Design for Industrial Fume Purification p.137

Inorganic Membrane Modules
Development of New Inorganic Membrane Modules p.23

Landfill Leachate
Purification of Landfill Leachate with Membrane Filtration p.33

Magnetically Assisted Separation
Magnetically Assisted Chemical Separation p.349

Markets
An Overview of World Markets for Textile Filtration Media p.916
Filtration Activities in the Asia-Pacific Region p.595
Liquid Filtration Market Developments p.630
Markets for Hot Gas Filtration p.809
The European Market for Membrane Liquid Separation p.672
The European Market for VOC Emission Control Equipment p.686

Membrane Bioreactors
A New Development in Membrane Bioreactors: Increasing the Capacity of Existing Biological Treatment Plants p.792

Membrane Filters
The European Market for Membrane Liquid Separation p.672

Membrane Testing
Predicting Log Removal Performance of Membrane Systems Using In-Situ Integrity Testing p.26

Metallic Membranes
Metallic Membranes p.40

Microfiltration
The Use of Crossflow Membranes to Clarify and Stabilize Beer p.860

Molecular Recognition Technology
The Increasing Use of Affinity Membranes with Molecular Recognition Technology p.237

Nonwoven Materials
Evaluating Filtration Media: A Comparison of Polymeric Membranes and Nonwovens p.912

Off-Gas Separation
The Optimisation of Fermentation Processes Utilising Integrated Off-Gas Separation p.499

Performance of Pressure Filters
Predicting the Performance of Pressure Filters p.293

Pollution Control
The Upgrading of Two Liquid Waste Incinerators to Meet the Latest European Legislation p.803

Polymer Filtration Systems
Comparison of Metal Filter Media for Polymer Melt Filtration Using the Standard Multipass and Polymer Tests p.427

Polymer Filtration Systems
The Design of Polymer Filtration Systems: A General Review p.421

Pore Size Distributions
Comments on Fluid-Intrusion Measurements for Determining the Pore-Size Distribution in Filter Media p.455
Revisiting the Most Probable Pore-Size Distribution in Filter Media: The Gamma Distribution p.287
Advances in Pore Size Characterization: New Techniques for Largest Pore Size and Pore Shape Distribution p.254

Potable Water Treatment
Using Membranes to Treat Potable Water p.30

Precipitators
Innovative Wet Electrostatic Precipitator Technology p.433

Pressure Filters
Predicting the Performance of Pressure Filters p.293

Process Dust Collection
The Importance of Partnership in Dust Collection System Design p.146

Sand Filters
Backwash or Continuous? A New Trend in German Sand Filters p.920

Simulation of Dust Filter Behaviour
Simulation of the Long-Term Behaviour of Regenerateable Dust Filters p.373

Sludge Dewatering
Torque Requirement for High-Solids Centrifugal Sludge Dewatering p.883

Strainers and Filters (Self-Cleaning)
Russell Finex: Over 60 Years' Experience in Straining and Filtration p.856

Surface Filtration
Surface Filtration: The Way Forward? p.134

Testing and Monitoring
Comparative Tests on Jet Pressure Cleaned Filter Media p.922

The Monitoring of Filters p.728
Advances in Pore Size Characterization: New Techniques for Largest Pore Size and Pore Shape Distribution p.254

Textiles (Technical)
An Overview of World Markets for Textile Filtration Media p.916

Turbidity and Drinking Water
Turbidity and Beyond p.63

Vacuum Evaporation
Vacuum Evaporation of Exhausted Oil-Emulsions and the Reuse of the Distillate p.417

Washing Filter Cakes
Washing Thin and Nonuniform Filter Cakes: Effects of Wash Liquor Maldistribution p.185

Wastewater Purification
The Flow Through Capacitor: A New Tool in Wastewater Purification p.345

Water Treatment
Turbidity and Beyond p.63
Using Membranes to Treat Potable Water p.30

Wet Filters and Separators
Liquid Filtration Market Developments p.630

Wine Filtration
Crossflow Wine Filtration by Small Diameter Hollow Fibre Membranes p.513

- **Market Summaries**
- **Multi-year Calendar of Conferences**
- **Market Leader Listings**

Conference Calendar
Hundreds of important conferences are listed in a multi-year calendar which includes contact details.

Market Leaders
Market leader listings by application are supplied for certain equipment, e.g., catalytic oxidizers and pumps.

Recent Newsletters
Full text of recent McIlvaine newsletters and project alerts.

Market Summaries
Twenty market summaries of reports on the world markets, in both liquid and air, are presented on the web site. These two-page summaries provide world forecasts and important conclusions.
